

Teaching and Teacher Education  
(2013)

**Beliefs about teaching:  
Persistent or malleable?  
A longitudinal study  
of prospective student  
teachers' beliefs**

Erika Löffström, Helsingi Ülikool

Katrin Poom-Valickis, Tallinna Ülikool

# Küsimused, millele vastust otsiti

- 1) What metaphors do students use to express their beliefs about the teacher/teaching?
- 2) How do students' beliefs about the teacher's role (as measured with the teacher's knowledge-base instrument) differ between the first and the third years of study?
- 3) What kind of relationship exists between the measurement of beliefs using metaphors and the teacher's knowledge-base instrument in the first and third years of study?
- 4) Is there a difference in beliefs about the teacher's role between students who chose to enter teacher education programmes and those who chose other educational
