Justification of post-doctoral research project

Please use 'Save' frequently to save changes to your application and prevent data loss. If you keep the form idle too long the system can time out and you may lose any data that were unsaved. You can also prepare longer text segments in a separate text file (e.g. in Word or OpenOffice) and then simply copy the text into the designated field. The post-doctoral research project justification is mandatory. The total length of the justification across all sections is up to 20 000 characters with spaces. The list of references, pictures and schemes shall be added as separate files at the end of the form.

Unused characters across all fields: 20000 (incl. spaces).

The general theoretical background * ?
to the post-doctoral research project

General theoretical background, relevance and novelty of the project. The application is evaluated for its general (international) level, interest to research as well as its potential for the creation of new knowledge.

Source [X] [C] [I] [U] [S] [B] [I] [U] [S] [x₂] [x²] [Ω]

body p

The main objectives of the post-doctoral research project, hypotheses, research questions, description of methods, and the annual research plan

* ? Main objectives, hypotheses, methods, the degree of elaboration of the project plan and its time frame. The application is evaluated for its degree of elaboration; the validity of the planned methodology and its appropriateness for implementing the project, and whether the planned activities and timeline of attaining the objectives are realistic.

Source [X] [C] [I] [U] [S] [B] [I] [U] [S] [x₂] [x²] [Ω]

body p

Expected results and their potential * ?
applicability, as well as possible
future research directions

Expected results, their potential applicability, and possible future directions of research. The application is evaluated for the degree to which the prospective results will make a substantial contribution to the development of science and technology.

Data Management plan

* ? Please describe which data will be created, managed, or collected; which methods and standards will be applied; will the data be shared or made public and in which way; how the data will be stored during the period of the project and preserved after the end of the project. You can also upload a separate data management plan on the bottom of this tab.

body p

A description of Post-doctoral Fellow's previous R&D activities relevant to this project

* ? The quality and results of the Post-doctoral Fellow's previous research activities, his/her capacity to carry out the proposed project, and experience in (international) research-related cooperation. The quality and capacity to carry out his/her work is evaluated in the light of the Post-doctoral Fellow's previous research and results (on international level), the number and quality of publications, etc. The Post-doctoral Fellow's experience is evaluated by the scope of participation in research projects (home and abroad), participation in conferences, skills obtained, research cooperation with the private sector, and other research related activities.

body p

A description of Supervisor's previous R&D activities relevant to this project

* ? The qualification and capacity of the supervisor to carry out this project is evaluated in the light of the supervisor's previous research and results (on international level), the number and quality of publications, number of successfully supervised PhD dissertations and post-doctoral fellows, the scope of managing and/or participating in domestic and/or International R&D projects (including research cooperation with the private sector), and other research-related activities.

The list of references, charts and schemes cited or referred to in this Justification

? In case of need please attach as separate files: 1. list of references, 2. schemes, graphs or pictures explaining the relevant issues in the justification, 3. research timeline e.g. graph or table, 4. data management plan. Please attach only .rtf, or .pdf files. No other files are allowed. If other files have been added, the application will be returned for making corrections.

Projects related to the post-doctoral research project (0) [Browse from ETIS](#)

Research projects, grants, contract work, etc., carried out by the Post-doctoral Fellow and Supervisor related to the post-doctoral research project. Projects can be either browsed from ETIS or described as free text. ✕

The relationship of the project with the ongoing or recent research of the Post-doctoral Fellow and Supervisor

Please name related research projects of Post-doctoral Fellow and describe how the research project fits in with the other current projects of the Post-doctoral Fellow and Supervisor in the same research field(s). If the project is not related to the other current projects of the Post-doctoral Fellow and Supervisor in the same research field(s), please explain the choice of the research topic.

Information on considerations how ethical issues involved in the proposed research will be followed

The applicants are required to consider the potential risks related to ethical issues of any procedure in the research projects involving human participation, personal/sensible data, experiments with animals or research on genetic resources. The applicants need to describe how the requirements of voluntary participation, informed consent, confidentiality and anonymity of subjects, data storage and protection will be followed. Use of research methods that require review or approval from an Estonian human ethics or a bioethics research committee, should be also clearly indicated in the application. If the corresponding approvals are available by the application deadline, please attach them to the application. In case your supervisor's project has a valid approval from the ethics committee, you may provide the same approval. If the project necessitates compliance with the Nagoya Protocol, please describe how it will be followed during the project. ✕

Information on considerations how ethical issues involved in the proposed research will be followed

* The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): **1000**

Is Ethics Committee decision required?

Ethics Committee decision

Decision of the corresponding ethics committee if research involves human research or animal tests. Decision of ethics committee is not mandatory.

Drag file to this box or use upload button (max 3 MB)

Does the project necessitate compliance with the Nagoya protocol?

* Yes No

Compliance with the Nagoya Protocol

If the project necessitates compliance with the Nagoya Protocol, the applicant has to add the due diligence declaration if it has been already obtained. If the due diligence declaration has not been obtained yet, it must be submitted to the Council by the end of the project at the latest. Further reading on Nagoya protocol: <http://www.etag.ee/wp-content/uploads/2018/03/Nagoya-protokollist-tulenevate-n%C3%B5uete-selgitus.pdf> or <https://www.cbd.int/abs/text/default.shtml>

Submission ?

Confirmations:

- The information provided in the application corresponds to the requirements and conditions of the 2018 „Guidelines for Mobilitas Plus postdoctoral grant applications“.
- The Applicant must conclude a valid employment contract with the Post-doctoral Fellow mentioned in the application in case of grant approval.
- Applicant and Post-doctoral Fellow are aware of the requirements for informing the public in case of receiving the grant as per the Structural Aid Act Article 39 Sub-Section 10.
- Applicant and Post-doctoral Fellow are aware that the data related to the aforementioned grant will be public as per the Structural Aid Act Article 39 Sub-Section 3.
- Applicant and Post-doctoral Fellow are aware that grant approval might be reversed and baseless grant must be repaid if there exists financial correction as per the Structural Aid Act Article 45 Sub-Section 1 or the grant approval decision is annulled if there exist annulation conditions as per the Structural Aid Act Article 22 Sub-Section 3.
- Applicant and Post-doctoral Fellow are aware of the effect of profits on receiving the grant and has considered the limits on profit gains when compiling the application.
- Applicant and Post-doctoral Fellow agree that they can be audited and checked as per the Structural Aid Act.
- The supported activities will be completed during the eligibility period described in the grant approval conditions order, but not later than by December 31, 2022.
- Supported activities have not been completed or fully implemented prior to the application, regardless of whether the costs have been paid.
- Support is not requested for costs that have already received support from other measures or national or other foreign aid resources.
- Applicant must cover self-financing and costs not eligible for compensation.
- The host institution and Post-doctoral Fellow are aware, that in case the host institution is a legal person in private law, the support is considered as de minimis state aid which can not exceed 200 000 EUR over any period of three fiscal years for a single undertaking.
- Document and information hand-over will take place via ETIS.
- The application has been written by the post-doctoral fellow and the host institution.
- The applicant complies with sections 2 and 3 of Government Regulation no 133 (<https://www.riigiteataja.ee/akt/126082014006?leiaKehtiv>) from 21 August 2014 (including: has no tax debt to the state, is not bankrupt, is not in difficulty, has no unexecuted orders to recover unlawful or misused aid etc)
