## Field of research and summaries

Field of research, speciality and % \* Add New

Summary in Estonian \*

Please write an abstract-like description of your project, explaining what the idea is all about, what the expected outcomes are, and why these are important. This description should be understandable for a non-specialist audience. If the application will be approved, this summary will be made public.

The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): 1000

Summary in English \*

Please write an abstract-like description of your project, explaining what the idea is all about, what the expected outcomes are, and why these are important. This description should be understandable for a non-specialist audience. If the application will be approved, this summary will be made public.

The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): 1000

Keywords \*

Please include 3-6 keywords for indexing purposes (select the keywords that will make it easier to find the best reviewers for your application).

The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): 1000

## Budget

Research type

\* ☐ Basic research ☐ Applied research

Research methodology

\* ☐ Experimental ☐ Non-experimental

Explanation on research methodology

\* ?

Please explain your previous choice (experimental or non-experimental).

The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): **1000**

I would like to receive the relocation allowance (applicable if the applicant has not lived, worked or studied in Estonia for 180 days immediately prior to the closing date of the call)

☐

**Total costs** **51 000,00 EUR**

incl. direct costs for the Returnee 40 800,00 EUR

incl. overhead 10 200,00 EUR

**Self-financing by the institution** **2 469,78 EUR**

I have previously received Estonian state funding in order to carry out a postdoctoral research project abroad

☐

## Meeting the ethical requirements

Confirmation of adherence to the \* ? requirements of research ethics

The applicants are required to consider the potential risks related to ethical issues of any procedure in the research projects involving human participation, personal/sensitive data, experiments with animals or research on genetic resources. The applicants need to describe how the requirements of voluntary participation, informed consent, confidentiality and anonymity of subjects will be followed. Please use the Ethics Guidelines for explaining the ethical issues related to your project.

The maximum length is 1000 characters (incl. spaces). Unused characters (incl. spaces): **1000**

Is the ethics committee decision mandatory?

☐

Does the project necessitate compliance with the Nagoya protocol?

\* ☐ Yes ☐ No

Compliance with the Nagoya Protocol

\* ? For the use of animals, plants, or microorganisms in compliance with the Nagoya Protocol, please give details on what type of genetic material will be used and how exactly.

The maximum length is 3000 characters (incl. spaces). Unused characters (incl. spaces): **3000**

Due diligence declaration

? The due diligence declaration has to be submitted only if the utilisation of the genetic resources in question is within the scope of the Nagoya Protocol. If the due diligence declaration has already been declared in DECLARE, it should be added to the application. If the due diligence declaration has not been declared yet, it must be declared by the end of the project at the latest. Only .pdf or .docx files can be uploaded.

## Submission ?

! Please make following amendments:

- Field "Research methodology" is mandatory!
- Applicant's CV is mandatory!
- Field "Field of research, speciality and %" is mandatory!
- Sum of percentages of fields of research must be 100%!
- Field "Explanation on research methodology" is mandatory!
- Field "Summary in Estonian" is mandatory!
- Field "Summary in English" is mandatory!
- Field "Keywords" is mandatory!
- Field "Period of being away from Estonia and explanation in case the period is shorter than 2 years" is mandatory!
- Field "Scientific background of the research project" is mandatory!
- Field "A description of previous R&D activities and the track record of the Returnee and it's link to the planned return grant project" is mandatory!
- Field "The main objectives of the project, hypotheses, research questions, description of methods, and the annual research plans" is mandatory!
- Field "Expected results and their potential applicability, as well as possible future research directions" is mandatory!
- Field "Data management" is mandatory!
- Field "Dissemination of results" is mandatory!
- Field "Related projects" is mandatory!
- Field "Research infrastructure (at the host institution or at other sites) related to the project" is mandatory!
- Field "Impact of the project on the development of the economy and civil society, project impact in terms of meeting the aims of the Mobilitas Plus" is mandatory!
- Field "Research type" is mandatory!
- Field "Information on considerations how ethical issues involved in the proposed research will be followed" is mandatory!
- Field "Compliance with the Nagoya Protocol" is mandatory!
- Field "Does the project necessitate compliance with the Nagoya protocol?" is mandatory!

Confirmations:

- The information provided in the application corresponds to the requirements and conditions of the „Guidelines for Mobilitas Pluss returning researcher grant applications“.
- The host institution must conclude a valid employment contract with the Returnee mentioned in the application in case of grant approval.
- The host institution and Returnee are aware of the requirements for informing the public in case of receiving the grant as per the Structural Aid Act Article 39 Sub-Section 10.
- The host institution and Returnee are aware that the data related to the aforementioned grant will be public as per the Structural Aid Act Article 39 Sub-Section 3.
- The host institution and Returnee are aware that grant approval might be reversed and baseless grant must be repaid if there exists financial correction as per the Structural Aid Act Article 45 Sub-Section 1 or the grant approval decision is annulled if there exist annulation conditions as per the Structural Aid Act Article 22 Sub-Section 3.
- The host institution and Returnee are aware of the effect of profits on receiving the grant and has considered the limits on profit gains when compiling the application.
- The host institution and Returnee agree that they can be audited and checked as per the Structural Aid Act.
- The supported activities will be completed during the eligibility period described in the grant approval conditions order, but not later than by December 31, 2022.
- Supported activities have not been completed or fully implemented prior to the application, regardless of whether the costs have been paid.
- Support is not requested for costs that have already received support from other measures or national or other foreign aid resources.
- The host institution must cover self-financing and costs not eligible for compensation.
- The host institution and Returnee are aware, that in case the host institution is a legal person in private law, the support is considered as de minimis state aid which can not exceed 200 000 EUR over any period of three fiscal years for a single undertaking.
- Document and information hand-over will take place via ETIS.
- The application has been written by the returning researcher and the host institution.
- The applicant complies with sections 2 and 3 of Government Regulation no 133 (<https://www.riigiteataja.ee/akt/126082014006?leiaKehtiv>) from 21 August 2014 (including: has no tax debt to the state, is not bankrupt, is not in difficulty, has no unexecuted orders to recover unlawful or misused aid etc)
- Each part of this application complies with ethical principles (including the highest standards of research integrity, as set out, for instance, in the European Code of Conduct for Research Integrity, and, in particular, that fabrication, falsification, plagiarism, or other research misconduct has been avoided).
