

NUTIKAS – funding for applied research and product development

The funding supports companies in commissioning necessary applied research or product development projects from public R&D institutions. The company must be registered in Estonian Central Commercial Register. The project must be conducted either in field of ICT, health technologies or more efficient management of resources.

- Funding per project: **20 000 – 2 000 000 euros**
- Open call for applications until **30.09.2020**, with total amount 5,8 million euros.

Amount of the support:

	Small enterprise (< 50 employees)	Medium-sized enterprise (50-250 employees)	Large enterprise (> 250 employees)
Applied research	70%	60%	50%
Product development	45%	35%	25%

List of suitable Estonian public R&D institutions is available on Estonian Research Council's (ETAg) website: www.etag.ee/nutikas-research-partners. ETAg will help you to find suitable R&D institutions. Funding is applied through open call for proposals organised by the Archimedes Foundation. More information about the funding measure in English is available here: www.etag.ee/en/nutikas.
